Swiss Classic Train

## Swiss Classic Train

As basis tunnels and high-speed lines make for ever-shorter journeys, the pleasure and interest is increasingly taken out of train travel. The Swiss Classic Train takes us back to the largely-forgotten world of the fifties, where viewing the countryside rolling by while enjoying a leisurely meal or a drink could make the journey a pleasure and relaxation in itself. This new charter train can be assembled according to individual needs, and can comprise up to 10 carriages including Pullman, first class, second class, restaurant car and piano bar. Up to 400 passengers can be accommodated.

Whether on the Lötschberg or Gotthard, through the Jura or along Lake Constance or Lake Geneva, a trip on the Swiss Classic Train will be a memorable experience.

The almost forgotten pleasure of fine dining while travelling is rekindled by the Swiss Classic Train.

Nearly unlimited possibilities ...

... comfortable and easy-going  
second class carriages

... relaxation in the classless  
restaurant car

... having fun in the piano bar car
